CTPAT POLICY

It is the policy of Aguacates La Bonanza S.A. de C.V. to work altogether with the Government of the United States of America, so that Customs, Trade, Society and Association join efforts against terrorism, applying international standards of the CT-PAT Safe-Terrorism Borders Program. In doing so, we minimize the risks related to pollution, criminal activities such as drug trafficking, terrorism, and illegal trafficking in the supply chain.

It is our company's commitment to provide the necessary resources and to apply information and training procedures, rules and activities, with defined standards that ensure compliance with designed policies.

Gustavo Rivas Benitez
CEO
